Heuchera 'Georgia Peach'

Rated ⭐⭐⭐⭐⭐ by 1 person

Huge, peach-colored leaves with a showy-white overlay and a large, lush habit. Foliage color changes from peach tones in spring to rose from fall through winter. This herbaceous perennial has a mounding habit and prefers moist, well-drained soils. It thrives in shade to part shaded areas. 'Georgia Peach' is a favorite among Terra Nova Nurseries employees. www.terranovanurseries.com.
