## FEATURES

### DISEASE MANAGEMENT

#### 8 Combating Black Root Rot

Once established, the persistent and damaging pathogen — *Thielaviopsis* — can be tough to eradicate. Here are some guidelines towards prevention.

By A. R. Chase and Margery L. Daughtrey

### RESEARCH

#### 14 Ethephon Drenches on Bedding Plants

Although not currently labeled for drench applications, research shows that Florel drenches appear to be a viable method to control height and size of several bedding plant crops.

By Erik Runkle, Christopher Currey, Kasey Clemens, Roberto Lopez, William Miller and Neil Mattson

### GROWER 101

#### 20 The Three Keys to Water Treatment Design

While margins continue to shrink, growers are recognizing that high-quality water results in substantial benefits in many areas of production.

By Al Zylstra

### PEST MANAGEMENT

#### 24 Are Thrips Still Bugging You?

If this is a question you can answer with a “yes,” then it’s time to take a closer look at the problem and see what can be done to improve your pest management program.

By Ronald Valentin

## CULTURE CONNECTION

#### 32 Perennial Solutions: *Helleborus x hybridus* ‘Ballerina Ruffles’

With its large double flowers, extended bloom time and reliable landscape performance, this is one Lenten rose no perennial program should be without.

By Paul Pilon

#### 36 Crop Culture Report: *Lobularia Stream* Series

An impressive innovation in breeding, this series will make a great addition to any garden.

By Mike Fernandez

#### 37 New Varieties

*Angelonia*, *heucherella*, *calibrachoa* and *viola*

#### 38 Variety Spotlight

*Petunia*, *scaevola*

### ON THE COVER

Bred to be heat tolerant and well controlled in nature, *lobularia Stream* can handle early to late season and will add fragrance to any planting. To learn more about the *Stream* series, turn to page 36.
