□ = Minimum □ = Maximum

pH: 5.5 - 6.5

Fertilization Recommendations: 100 - 150 PPM

EC: 1.5 - 2.0

Light Levels: Full sun

Water Requirements: Dry moderately between waterings

Hardiness Zones: 5 - 10

Possible Problems: Insect: Spider mites and white fly are possible

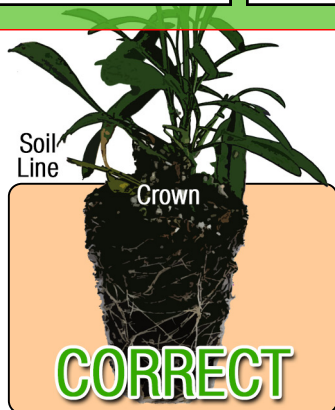

Habit: Upright, mounding

Diseases: None seen. Naturally resistant to downy mildew.

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

'Kudos Gold' exhibits all the same great traits of the other KUDOS™ members, but adds a gold color to the series. Forming a full mound, 'Kudos Gold' shows like no other Agastache before and rounds out the KUDOS™ family nicely. Foliage is a medium mint green color and has the characteristic honey-licorice-mint scent.
