EC: 0.7

Light Levels: Full sun

Water Requirements: Dry moderately between waterings

Hardiness Zones: 4 - 10

Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs

Habit: Clumping, upright

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

## Description

This plant amazed us with its long bloom-time and the sheer number of blooms. All of this is in addition to the bright yellow blooms that remain attractive for weeks with great bloom size on an upright, compact habit. Blooms keep coming from early summer until frost.

Do NOT bury the crown of the plug
