Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs

Habit: Mounding

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

A real blooming machine! Long lasting yellow and white flowers; an egg yolk yellow center and white ray petals look just like a farm fresh egg. The flowers last an exceptional amount of time and just keep on coming, all summer long. Sweetly fragrant, a favorite of butterflies, too. Excellent mounding habit.
