Possible Problems: Insect: Watch for aphids, mites, thrips, whitefly and slugs

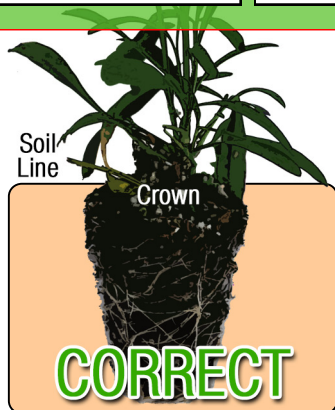

Habit: Upright

Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

Nothing like this in the marketplace! Searing, orange-red petals fill the entire flower. 'Fringe Festival' has no cone at all, just masses of petals, so thick, it looks like shag carpeting from the 70s. Its medium tall, stocky habit make this an incredible garden addition. Deep, pine green foliage is long and strap shaped and goes right to the ground. This flower style is very novel, but not a freak!
