Water Requirements: Dry moderately between waterings

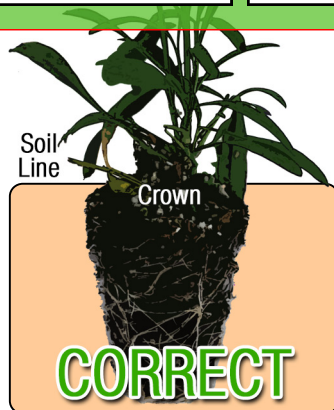

Hardiness Zones: 6 - 9

Possible Problems: Insect: No major problems

Diseases: Crown rot if over watered or over mulched

Habit: Upright

Day Length for Flowering: Day neutral

Do NOT bury the crown of the plug

Description

Once established, this drought tolerant cultivar is easy to grow and virtually maintenance free. Smaller leaves fill this compact habit and display a uniform shape that gives rise to dense flower spikes. Showy, hot pink flowers can withstand even hot summers as well as cold winters in well-drained soil throughout zones 6-9.
